

## The Cedar Springs Gold Series Water Softener

The Gold Series Water Softener will remove hardness in the water such as calcium & magnesium. Hardness is dissolved calcium and magnesium salts in water. It comes from dissolved rocks such as common limestone (calcium carbonate and magnesium carbonate), gypsum (calcium sulfate), Epsom salts (magnesium sulfate), calcium chloride, and magnesium chloride.

The Gold Series softeners will

1. Virtually eliminate reduced water flow and eventual plugging.
2. Reduce and/or remove premature water heater burn out.
3. No more poor laundry results.
4. Reduce scale rings at water level in toilets.
5. Reduce poor laundry economy.
6. Almost eliminate permanent water spots and deposits.
7. Cleaning of cooking utensils are much easier.
8. Increase the life of laundered goods.
9. Reduce any Increase in energy costs

### WATER SOFTENER BENEFITS

- Your hot water tank will have a longer life as the Water Softener keeps the hot water tank free of hard water scale build up in the tank and on the heating element.
- All appliances will last longer such as dishwashers, washing machines, coffee pots, humidifiers, kettles and hot tubs will all be free of hard water build up and operate more efficiently.
- When using soft water your hot water heating costs will be reduced by up to 24% as we eliminate hard water build up.
- When using laundry soaps, fabric softeners, dishwashing detergents, body wash and soaps and all other cleaning products, you will require less than half the amount with a water softener cutting your cleaning costs more than 50%!
- No more soap build up on your skin. Skin will be softer and healthier when it's natural oils are allowed to remain and are not covered up by hard water. Less soap is needed to cleanse your skin. This is especially important with younger children. Their skin is usually more delicate and sensitive to the irritants that are found in many soaps and cleaning products. Remember, with soft water a little shampoo and soap goes a very long way. Hair is softer and easier to manage when there isn't a build up of minerals coating it, this means it's easier to brush and de-tangle. If you color your hair it will keep its radiance longer if it's washed in soft water.
- Your clothes will last longer and remain brighter longer if they are washed in soft water. The reason is that hard water leaves mineral particles in the weave of most fabrics. This causes them to look dull and dingy.

- Scrubbing floors and tiles will be easier and faster because you won't have the hard water film and soap scum that hard water creates.
- Soft water saves you money:
  - Save up to 70% soaps and cleaning products
  - Save up to 24% heating costs.

Studies show that a family of 4 on 10grain hard water may save as much as \$92.00 per month with soft water.

### Finally Soft Water

Imagine softer skin, shinier hair, smoother shaving, dishes and glassware that sparkle and shine, laundry that washes brighter and comes out softer and lasts longer, plumbing fixtures and appliances that are protected against corrosion and hard water build up. Sounds like a dream? Well with the Cedar Springs line up of Water Softeners, this dream can become a reality.

- Simple fully programmable electronic water softener that doesn't waste any water
- Self-diagnostic service features
- Best efficiency water softener that uses 80% less salt than traditional water softeners
- Latest modern design uses as little as 2.5lbs of water softening salt and 17 gallons of water per regeneration
- High volume control valve for best backwashing providing the cleanest water softening resin for removing iron and water hardness
- 12 Volt AC uses less than \$4/yr in electricity
- Salt-free compatible, when using potassium
- Premium high flow control valve to satisfy any household soft water demands
- Regenerates (cleans itself ) on demand
- Power cell, hydro-interruption protection
- 20 year warranty
