

Cedar Stream Water Softeners

Cedar Stream Standard, Silver and Gold Level Water Softeners (7, 12 or 20 year warranty) will remove hardness (calcium & magnesium) Hardness is dissolved calcium and magnesium salts in water. It comes from dissolved rocks such as common limestone (calcium carbonate and magnesium carbonate), gypsum (calcium sulfate), Epsom salts (magnesium sulfate), calcium chloride, and magnesium chloride.

Cedar Stream Water Softeners will virtually eliminate

1. Reduced water flow and eventual plugging.
2. Premature water heater burn out.
3. Poor laundry results.
4. Scale ring at water level in toilets.
5. Poor laundry economy.
6. Permanent water spots and deposits.
7. Poor cooking results.
8. Reduced life of laundered goods.
9. Increase in energy costs

WATER SOFTENER BENEFITS

- Your hot water tank will have a longer life as the Water Softener keeps the hot water tank free of hard water scale buildup in the tank and on the heating element.
- All appliances will last longer such as dishwashers, washing machines, coffee pots, humidifiers, kettles and hot tubs will all be free of hard water buildup and operate more efficiently.
- When using soft water your hot water heating costs will be reduced by up to 24% as we eliminate hard water buildup.
- When using laundry soaps, fabric softeners, dishwashing detergents, body wash and soaps and all other cleaning products, you will require less than half the amount with a water softener cutting your cleaning costs more than 50%!
- No more soap buildup on your skin. Skin will be softer and healthier when it's natural oils are allowed to remain and are not covered up by hard water. Less soap is needed to cleanse your skin. This is especially important with younger children. Their skin is usually more delicate and sensitive to the irritants that are found in many soaps and cleaning products. Remember, with soft water a little shampoo and soap goes a very long way. Hair is softer and easier to manage when there isn't a buildup of minerals coating it, this means it's easier to brush and de-tangle. If you color your hair it will keep its radiance longer if it's washed in soft water.
- Your clothes will last longer and remain brighter longer if they are washed in soft water. The reason is that hard water leaves mineral particles in the weave of most fabrics. This causes them to look dull and dingy.
- Scrubbing floors and tiles will be easier and faster because you won't have the hardwater film and soap scum that hard water creates.
- Soft water saves you money:
 - up to 70% soaps and cleaning products
 - up to 24% heating costs.

Studies show a family of 4 on 10grain hard water may save as much as \$92.00 per month with soft water.

Finally Soft Water

Imagine softer skin, shinier hair, smoother shaving, dishes and glassware that sparkle and shine, laundry that washes brighter and comes out softer and lasts longer, plumbing fixtures and appliances that are protected against corrosion and hard water buildup. Sounds like a dream? Well with a Water Softener, this dream can become a reality.
